Fit. Function. Style.

GO RHINO®

Fit. Function. Style.

There's nothing more versatile than a truck or Jeep® – on or off road. Transforming a stock ride into a dream machine is more than just a matter of personal style. We enhance fit, function and style from front-to-back and everywhere in between. When it comes to unique product options, easy access and utility on the job, Go Rhino's selection fits everything from every day to extreme off-road use.

It all began back in 1975, bending metal with a fabricator's skill and an engineer's eye for design. We've delivered the hardest working, best fitting accessories and integrated systems to the vehicle aftermarket ever since. We understand how people feel about their vehicles, because we're owners too.

It comes down to three things we strive to get right every single time.

Fit. Designed specifically to fit the contours of each vehicle.

Function. Functional, user-friendly design that meets the distinctive needs of every vehicle owner. Customize for maximum utility and appeal on the street, for added safety or wear and tear on the job.

Style. Stand out with contemporary engineering and styling that doesn't roll off the showroom floor and enhances the look and utility of any truck or Jeep®.

The possibilities are endless with Integrated Vehicle Systems from Go Rhino.

So go ahead. Go the distance with Go Rhino.

Fit. Function. Style.

BR5 BUMPER REPLACEMENTS FOR HALF-TON

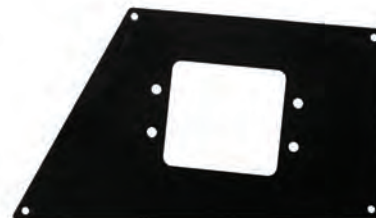

Go Rhino BR5 Winch-ready Front Bumper Replacement for half-ton trucks features a welded steel two-piece design that holds winches rated up to 12,500 pounds. This unique design accommodates factory proximity sensors and includes integrated light ports. Heavy-duty D-ring shackle mounts are mounted directly to frame rails for extra strength.

*Shown with
optional light
plates*

FEATURES:

- BR5 Front Bumper Replacement and winch tray ship as one part number (BR5 only)
- Winch tray accommodates most winches up to a 12,500 pound capacity
- Patent pending heavy-duty signature Rhino horn tow hook and shackle mounts
- May alter sensor proximity function
- Convenient and easy two piece installation
- Optional patented light mount bar allows installation of LED and other lights (US Patent # D757,316)
- Optional patented light plates allow installation of popular styles and sizes of LED lights
- Framed mesh vent covers allow air to flow through the bumper and hide brackets
- Functional, removable steel mesh cover allows easy access to the winch
- Bumper can be mounted without a winch, if desired
- Multiple license plate mounting locations available with included bracket
- 5-Year limited warranty on textured black powder coat finish

Optional light plates

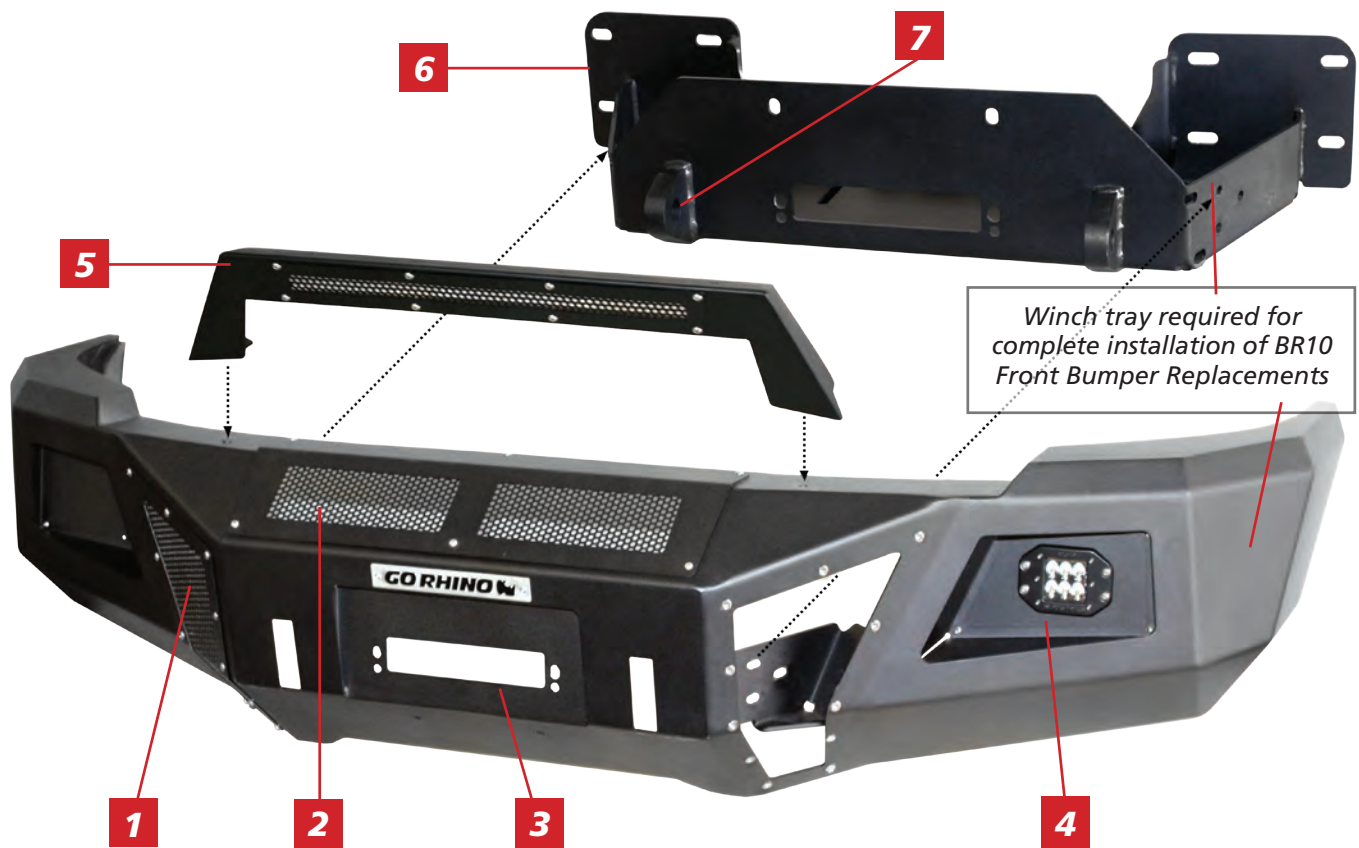

BR5

BR10 FRONT BUMPER REPLACEMENT

- 1** Framed mesh vent covers allow air to flow through the bumper and hide brackets.
- 2** Functional, removable steel mesh cover allows easy access to the winch.
- 3** Multiple license plate mounting locations available with included bracket.
- 4** Optional patented light plates allow installation of flush mount LED lights.
- 5** Optional add-on patented Light Mount Bar allows installation of LED lights. (US Patent # D757,316)

BR10 WINCH TRAY

- 6** Separate winch tray mount kit makes installation an easy two-step process.
Note: All bumpers require winch tray for complete installation and is ordered separately.
- 7** 1" Steel shackle mount welded directly to the 1/4" thick steel winch tray.

BR10

BR10 BUMPER REPLACEMENTS

Go Rhino BR10 Winch-ready Front Bumper Replacements for heavy duty trucks are winch-ready bumpers that are laser measured and designed in 3D CAD to form fit the contours of each vehicle. Versatile BR10 bumpers allow for customization with patented LED light mount bar, winch, and light plate options.

BR SERIES BUMPER REPLACEMENT ACCESSORIES

LIGHT MOUNT BAR

(US Patent # D757,316)

- Optional add-on accessory for BR Front Bumper Replacement
- Allows installation of LED lights on the bar, below the bar or inside the bar behind the removable mesh screen

BUMPER LIGHT PLATES

- Optional add-on accessory for BR Front Bumper or BR20 Rear Bumper
- Pair of easy, bolt-on, punched light plates replace standard plates
- Allows installation of 3" flush mount, 3" stem mount or 4" lights

THUMB SCREW KIT

- Optional add-on accessory for BR Front Bumper Replacement
- Customize the look of the BR Front Bumper Replacement
- Allows quick and easy removal of the top mesh winch access cover without tools

BR20 BUMPER REPLACEMENTS

The perfect complement to the BR5 and BR10 Front Bumper Replacement, the BR20 Rear Bumper Replacement is available for half-ton and heavy-duty trucks. Optional light plates allow installation of popular styles and sizes of LED flush-mount lights.

FEATURES:

- Integrated corner steps for more stepping points to access the bed
- 1" Steel shackle mount welded to each of the 1/4" steel mounting brackets
- Provisions for factory trailer light plug
- Includes two LED lights to light up the rear license plate
- Access point for the spare tire winch
- Provisions for factory rear park assist sensors
- Optional light plates allow installation of flush mount LED lights

BR20

EXHAUST TIPS

Standard polished stainless steel exhaust tips discolor and fade. Go Rhino Exhaust Tips undergo the extra step of chrome plating over stainless steel to protect against corrosion and discoloration, which means they'll keep their brilliant shine forever with just a soap and water cleaning.

FEATURES:

- Stainless Steel Torca AccuSeal™ clamp included
- Black powder coat over stainless steel finish
- Chrome over stainless steel finish
- Limited Lifetime Warranty

NOW OFFERING A NEW FAST-STYLE DESIGN!

- Part No. GRT21248FB

EXHAUST TIPS

GRILLE GUARDS

Go Rhino is the market leader in front end protection for trucks and SUVs. Grille guards offer added protection. Heavy-duty construction and vehicle-specific design fits vehicle contours for easy personalization.

3000 SERIES STEP GUARD®

Grill guards offer added protection, heavy duty construction and vehicle-specific design that fits vehicle contours for easy personalization.

FEATURES:

- Patented built-in, bumper-level step provides easy access to the engine compartment (US Patent #6,612,595)
- Three-piece, heavy-duty, modular steel construction (Will ship via parcel delivery)
- Available with or without brush guards
- No-drill installation on most applications with heavy duty mounting hardware included
- Pre-drilled holes provided to mount two auxiliary lights
- Available in two finishes: textured black powder coat (5-year limited warranty) or polished stainless finish (Limited lifetime warranty)

3000

GO RHINO

WINCH GUARD

Go Rhino winch guards, an industry-first design built to accept virtually any winch brand, offers construction and styling to enhance most HD and half ton trucks.

FEATURES:

- Built-in winch tray accommodates most winch brands
- Available with winch capacity up to 9,500 lbs
- Available with or without brush guards
- Style meets function with Euroguard looks and proven performance
- No-drill installation with heavy duty mounting hardware included
- Pre-drilled holes provided to mount two auxiliary lights or LED light bar
- 5-Year limited warranty for black powder coat finish

Heavy-duty winch guard shown. Winch and fairlead not included.

WRANGLER GUARD

Go Rhino Wrangler guards offer heavy-duty construction for maximum protection.

FEATURES:

- One-piece, heavy-duty steel construction (Must ship truck freight)
- Center screen protects the vehicle grille
- Patented built-in, bumper-level step provides easy access to engine compartment (US Patent # 6,612,595)
- No-drill installation with heavy duty mounting hardware included
- 5-Year limited warranty for black powder coat finish

NEW RC2 LR BULL BAR

Go Rhino RC2 LR Bull Bars offer updated styling and features that combine easy ways to add today's popular LED lights with front-end protection. Our textured black powder coat finish and Go Rhino hex pattern skid plate enhance vehicle styling with integrated openings and easy light mounting.

FEATURES:

- Three different skid plate designs allow installation of various LED lights, two cube lights, four cube lights and 20" light bar
- Center skid plate is pre-drilled for additional lighting
- 3" Diameter tubular steel frame
- Galvanized steel skid plate incorporates new hexagonal pattern
- No-drill brackets available for most applications
- Match center or bottom mount bull bars with vehicle-specific mounting kits for maximum market coverage and minimum inventory
- Complete kits with lighting, brackets and bull bar included are available
- 5-Year limited warranty for textured black powder coat finish

Note: Not compatible with some front bumper proximity sensors

NEW RC2 BULL BAR

Go Rhino RC2 provides heavy-duty, front-end protection for full size and mid-size trucks. It's designed for quick and easy no-drill installation, and with pre-punched mounting points, RC2 provides the ideal platform for auxiliary lights. 3" Stainless steel tubing for most full size and mid-size trucks.

FEATURES:

- Galvanized steel skid plate is included
- Reinforced pre-punched mounting points accommodate almost any light combination
- Available in two finishes: textured black powder coat (5-year limited warranty) or polished stainless finish (Limited lifetime warranty)
- Match center or bottom mount bull bars with vehicle specific mounting kits for maximum market coverage and minimum inventory
- Kits that include the brackets with the bull bar are available for easy ordering
- Complete kits that include LED lighting, brackets and bull bar are available

Note: Not compatible with some front bumper proximity sensors

RC2

NEW XE SERIES LIGHT MOUNT BAR

Go Rhino offers new ways to light up the trails with new products to mount LED lights. These new additions to the Go Rhino lineup continue the trend of innovative light mounting products for every vehicle from the weekend warrior to the daily driver.

XE50 LR

Go Rhino's XE50 LR patent pending innovative design is built with mounting capabilities for LED light bars and/or multiple combinations of LED lights for the front of the vehicle. The XE50 LR features galvanized steel construction with black texture powder coat finish and a 5-year limited warranty.

FEATURES:

- Allows for mounting of LED light bars or multiple combinations of LED lights
- Modular construction allows for maximum customization
- Galvanized steel construction
- Texture black powder coat finish with a 5-year limited warranty
- Install with vehicle specific mounting brackets
- Applications available for most pick-up trucks
- Available with 3" or 6" override bar

NEW RC3 LR SKID PLATE

The RC3 LR is the newest evolution in front end vehicle protection. This unique combination of skid plate, rock and splash guard, non-slip patented access step and recessed light mount provides excellent front end protection.

FEATURES:

- Constructed of 2" galvanized steel tube frame with 3/16" Aluminum skid plate for enhanced corrosion protection
- Integrated galvanized steel patented front access step (US Patent # 6,612,595)
- Light ready mount for optional 20" LED single row light bar (not included)
- RC3 LR will not interfere with OEM bumper mounted front facing sensors
- Replaceable polymer rub plate for an additional layer of protection from road debris
- Applications available for most vehicles
- Complete kits with an LED bar, brackets and RC3 LR skid plate included are available
- Textured black powder coat finish with a 5-year limited warranty

RB10 RUNNING BOARDS

Go Rhino RB10 running boards add an aggressive raptor-inspired style to many of today's most popular full and mid-size trucks. RB10 Running Boards protect the vehicle from debris, while providing a wide, full-length step platform for easy entry to the front or back doors. These RB Series running boards are available in two finishes: protective bedliner coating or texture powder coat.

Provides rocker protection

Raptor style louvers with an open slot design help reduce snow and mud buildup

FEATURES:

- Raptor-inspired style running board design
- Constructed from galvanized steel for additional corrosion protection
- Available in two finishes: protective bedliner coating or textured black powder coat for corrosion, impact and abrasion resistance (5-year limited warranty)
- Available with or without drop steps
- Simple, no-drill installation. Sold in vehicle-specific sets with complete mounting hardware included
- Mounts high and tight to protect lower body
- Complementary RB10 hitch step and drop steps available

NEW RB10 HITCH STEP

The RB10 Hitch Step adds a raptor-inspired style to the back of any vehicle with a 2" receiver. This wide, secure surface allows an easy step up into the bed or a steady surface to stand and work on. It's built from galvanized steel, available with durable black texture finish or protective bedliner coating for corrosion, impact and abrasion resistance.

FEATURES:

- RB10 raptor-inspired style
- RB10 style louvers
- Wide, secure step
- Fits 2" receivers
- Complements the RB10 running board

Easy entry – aggressive, raptor-inspired styling

RB SERIES DROP STEPS

The RB Series Drop Step accessory is perfect for all RB10s installed on lifted or taller trucks. These steps drop 4" below the RB10 boards and hitch step, making entering a vehicle easy!

FEATURES:

- Easily installs in minutes
- Sold in pairs: one driver and one passenger side
- Angled fits all RB Series running board applications, straight fits RB Series drop steps
- Drop step surface area is 4" below main board for easier entry and exit
- Includes all hardware for a simple no-drill installation

- Available in two finishes: protective bedliner coating or textured black powder coat for corrosion, impact and abrasion resistance (5-year limited warranty)

OPTIONAL RB SERIES DROP STEPS

Optional 4" drop step (sold separately) is compatible with RB Series running boards and RB Series hitch step.

- Part No. 63410000T (angled for running boards)
- Part No. 69410000T (straight for running boards and hitch steps)

NEW RB20 RUNNING BOARDS

Go Rhino RB20 Running boards give the truck the latest raptor-inspired style and function; plus optional RB Series drop steps add style and function for trucks with larger wheels and tires or lifts.

FEATURES:

- Patent pending cab length running boards for popular crew cab and extended cab trucks
- Constructed from galvanized steel for additional corrosion protection
- Available in two finishes: protective bedliner coating or textured powder coat for corrosion, impact and abrasion resistance
- Available with or without four drop down steps
- Sold in vehicle-specific sets. Includes mounting brackets
- Simple, no-drill installation
- 5-Year limited warranty

NEW RB20 HITCH STEP

The new raptor-inspired style RB20 Hitch Step complements the RB20 Running Board for the back of any vehicle with a 2" receiver. Available in two finishes: protective bedliner coating, or textured black powder coat for corrosion, impact and abrasion resistance with a 5-year limited warranty.

FEATURES:

- RB20 raptor-inspired style
- Wide, secure step
- Fits 2" receivers
- Complements the RB20 Running Board

NEW RB SERIES DROP STEPS

The RB Series Drop Step accessory is perfect for all RB Series installed on lifted or taller trucks. These steps drop 4" below the RB Series boards and hitch step, making entering a vehicle easy.

FEATURES:

- Sold in pairs: one driver and one passenger side
- Angled fits all RB Series running board applications, straight fits RB Series drop steps
- Drop step surface area is 4" below main board for easier entry and exit
- Available in two finishes; protective bedliner coating or texture black powder coat for corrosion, impact and abrasion resistance (5-year limited warranty)
- Includes all hardware for a simple no-drill installation
- Easily installs in minutes

OPTIONAL RB SERIES DROP STEPS

Optional 4" drop step (sold separately) is compatible with RB Series running boards and RB Series hitch step.

- Part No. 63410000T (angled for running boards)
- Part No. 69410000T (straight for running boards and hitch steps)

NEW DOMINATOR D6 RUNNING BOARD

Dominator D6 running boards have a unique design that allows for easy access in and out of the vehicle. The main running board has a raised, punched pattern for extra style and grip. Optional 4" drop-down steps are ideal for trucks with lifts or larger wheels and tires.

FEATURES:

- Available in two finishes: all black textured powder coat with textured step plate or black textured powder coat with brushed stainless steel step plate (5-year limited warranty)
- Mounts tight to rocker panel for maximum ground clearance and protection
- Available patent pending optional bolt-on drop steps
- Punched step plate area has raised pattern to provide a non-slip, extra grip surface
- Constructed from galvanized steel for additional corrosion protection

D6

NEW DOMINATOR D6 HITCH STEP

The Dominator D6 hitch step complements the Dominator D6 running board perfectly with its matching design. The side step main tube is manufactured from 1-1/2" round tubing with a punched steel step area to provide extra grip. Dominator D6 hitch steps are available in black texture powder coat finish with a 5 year warranty, and are compatible with 2" receiver hitches.

FEATURES:

- D6 unique design with punched steel step area for extra grip
- Wide, secure stepping platform
- Fits 2" receivers
- Matching D6 running board is available

DOMINATOR D4 DUAL-STEP®

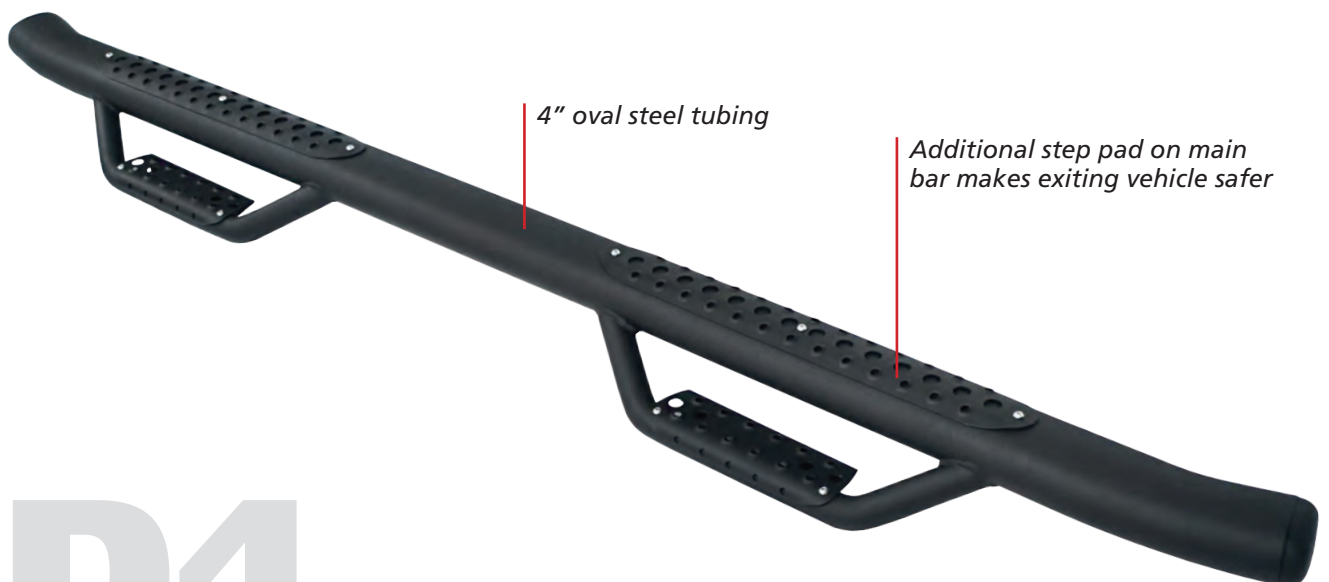

Dominator D4 steps offer a 4" wide oval stepbar design with added hoops for a real two-step entry and exit from the truck cab.

This exclusive Dual-Step® design presents an upper and lower step up to the cab for the perfect step up assist for taller, lifted trucks with oversized tires.

FEATURES:

- Main bar and lower hoops feature extra-wide patented punched galvanized steel step pads for extra grip (US Patent # D717,708)
- Simple, no-drill installation on most applications
- Available in two finishes: textured black powder coat (5-year limited warranty), or polished stainless finish (Limited lifetime warranty)

D4

DOMINATOR D3 WHEEL-TO-WHEEL

Go Rhino Dominator D3 Wheel-To-Wheel Hoop Steps in modular or one-piece versions extend between the front and back wheel openings with drop down steps placed below each door, and a third step positioned towards the back providing easy access the truck bed or toolbox.

DOMINATOR D3 ONE-PIECE

FEATURES:

- One-piece main bar made of 3" round steel tubing
- Three hoop steps on each side feature punched steel step pads for extra grip
- Removable galvanized steel step pads
- Third hoop provides easier access to the truck bed
- Simple, no-drill installation on most applications. Mounting brackets included
- Available in two finishes: textured black powder coat (5-year limited warranty) or polished stainless finish (Limited lifetime warranty)

Note: Must ship truck freight

Patented punched steel step pads for extra grip (US Patent # D717,708)

DOMINATOR D3 wheel-to-wheel hoop steps provide convenient steps to access the cab and truck bed

Optional 'Original' style step pads provide extra room for large boots. Available in black or brushed aluminum finish as shown. (sold separately)

DOMINATOR D3 MODULAR

Go Rhino Dominator D3 patented two-piece modular design delivers the same strength and durability as the one-piece design with the added benefit of significant savings in shipping costs.

FEATURES:

- Two-piece main bar made of 3" round steel tubing
- Three hoop steps feature punched galvanneal steel step pads for extra grip
- Third hoop provides easier access to truck bed or toolbox
- Simple, no-drill installation on most applications
- Available in two finishes: textured black powder coat (5-year limited warranty), or polished stainless finish (Limited lifetime warranty)
- Ships parcel, which is more convenient and cost-effective than shipping truck freight

Modular D3 bars have unique reinforced male/female connector tubes for the strength and rigidity of a one-piece bar. Modular design offers lower freight cost and reduced potential for freight damage.

D3

DOMINATOR D2 SIDEBARS

Go Rhino Dominator D2 hoop-step sidebars are available in cab length with welded, removable hoop drop steps. Every Dominator features hoop-style drop steps to make entry and exit easy and deliver rugged style to any truck.

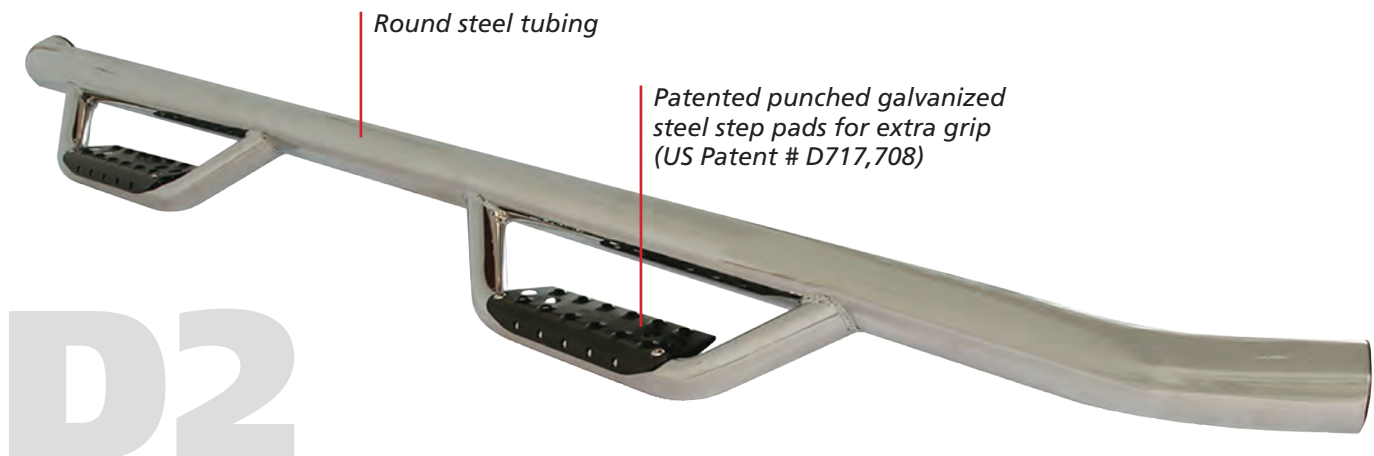

Dominator D2 steps sit high and tight against the vehicle

DOMINATOR D2 CAB LENGTH

This classic hoop step design sits close to the body of the truck to provide a wide, secure stepping point for entering and exiting a vehicle.

FEATURES:

- One-piece main bar made of round steel tubing
- Hoop steps on each side feature punched galvanized steel step pads for extra grip
- Simple, no-drill installation on most applications. Mounting brackets included
- Available in two finishes: textured black powder coat (5-year limited warranty) or polished stainless finish (Limited lifetime warranty)

D2

DOMINATOR HITCH STEPS

The Dominator Hitch Step complements the Dominator Sidesteps perfectly with its matching design featuring two stepping platforms: a full-size top step and a drop down step.

FEATURES:

- Unique design provides a full-size top step and a drop down lower step 36" wide step
- High-traction molded step pad on top, and perforated step pad on lower step
- Heavy-duty steel construction for unmatched strength and durability
- Available in two finishes: textured black powder coat (5-year limited warranty), or polished stainless steel finish (Limited lifetime warranty)
- Easily installed into standard 2" hitch receivers
- Includes anti-rattle device and convenient storage bag

Textured Black • Part No. D360T

Polished Stainless - Part No. D360PS

DOMINATOR

OE XTREME SIDE STEPS

Go Rhino's signature OE Xtreme Side Steps offer an OE style look to most trucks and SUVs. Featuring SuperGrip rubberized step pads that grip when wet, these wide oval or square designs complement almost every vehicle. Matched with custom, vehicle specific brackets, you get factory looks and quality that lasts.

OE XTREME

FIT MORE TRUCKS WITH FEWER PARTS

Go Rhino OE XTREME Side Steps are a multi-fit design that employs a no-drill mounting bracket system, sold separately from the step bar to satisfy customers while stocking fewer parts.

SR10 offered with black or brushed stainless fairings

ROOF RACKS

NEW SPORT BAR 2.0

SPORT BAR 2.0 is an amped up version of a classic favorite for most full size and mid size trucks. By mounting to the truck bed rail, it's compatible with most retractable, roll-up and some folding bed covers. SPORT BAR 2.0 offers two LED mounting options: a standard fixed mount or an optional power-actuated hideaway. The factory assembled power-actuated hideaway mount allows the lights to retract flush inside a protective light box. (Patent pending)

FEATURES:

- Compatible with most retractable, roll-up and some folding bed covers
- Standard fixed mount versions is compatible with lighting arrays including a variety of individual lights and LED bars up to 40".
- Standard fixed mount version can be upgraded to a power actuated version at any time
- Provides mounting for LED light bars or up to five 7" round or 3" cube lights (Lights not included)
- Patent pending powered actuated hide-away mount includes a wiring harness and allows for lights to retract when not in use
- Power actuated hide-away mount is available as a factory pre-assembled complete kit
- Available in two finishes: textured black powder coat (5-year limited warranty) or polished stainless steel finish (Limited lifetime warranty)
- Light bracket kit available for mounting of smaller lights

Note: Ships parcel

SPORT BAR

*Removable side plates
(Lights not included)*

*Fixed mount or power
actuated options allow
installation of LED lights.

BUMPERS

BRJ40 BUMPER LIGHTING SYSTEM

Go Rhino's Bumper Lighting System allows complete customization of light mounting configurations on the Go Rhino BRJ40 Front Bumper. Multiple mounting options on light mount bars and end caps allow for diverse lighting variations for any style of lights.

Rockline® and Roadline™ Light Mount Bars

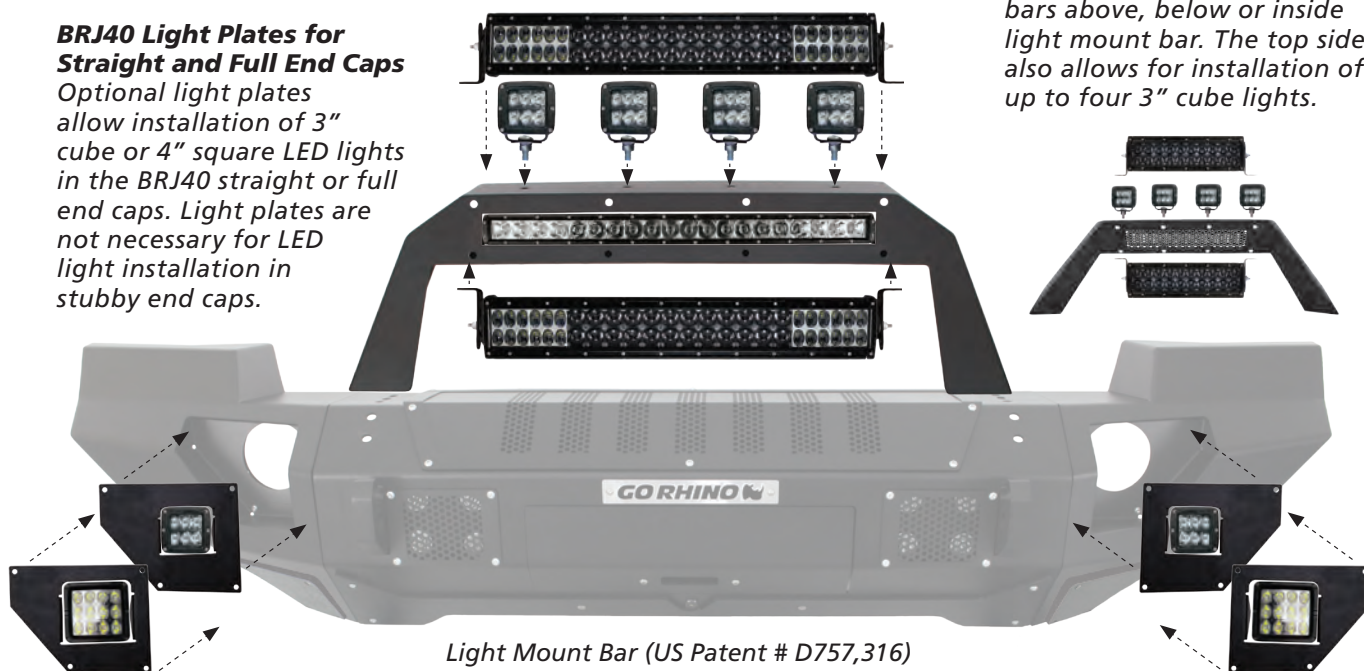

Mount up to 20" LED light bars above, below or inside light mount bar. The top side also allows for installation of up to four 3" cube lights.

BRJ40 Light Plates for Straight and Full End Caps

Optional light plates allow installation of 3" cube or 4" square LED lights in the BRJ40 straight or full end caps. Light plates are not necessary for LED light installation in stubby end caps.

Trailline® Light Mount Bar

Mount up to 10" LED light bars above, below or inside light mount bar. The top side also allows for installation of up to four 3" cube lights.

BRJ40 JEEP® FRONT BUMPER

BRJ40

FEATURES:

- Bolt-on modular design allows for up to 16 unique style combinations
- 3 Optional end caps and 3 optional light mount bars available
- Patent pending 1" steel shackle mounts with signature Rhino horn hook
- Patent pending locking storage drawer uses vehicle ignition key
- Can be used with or without a winch. Winch capacity up to 12,500 lbs.
- Round factory lights can be reused with end caps
- Optional light plates can be purchased to mount some square aftermarket lights
- Replaceable polymer rub plates help protect approach angle area of bumper
- 3/16" Steel with 1/4" brackets. Includes stainless steel exterior hardware
- Textured black powder coat finish (5-year limited warranty)

Allows for installation of eight 3" cube lights • Part No. 738300T (Lights not included)

The Go Rhino WLF Windshield Light Frame for the 07-17 Jeep® Wrangler and Wrangler Unlimited offers a total lighting solution. Only Go Rhino allows you to choose from a broad range of lighting options both across the windshield and on the A-pillar with a product designed for strength, style, and full-frame protection.

FEATURES:

- Heavy duty textured powder-coated uprights mount directly to A-pillar (5-year limited warranty)
- 4 Different options protect a variety of lights and light bars
- Unique side-to-side lateral rack design increases stability and reduces vibration
- Exclusive vertical stacking tabs allow for additional lower lighting options
- Rubber-isolated mounting system
- Stainless steel hardware
- Easy no-drill installation

Part No. 731500T
Allows for installation of 50" light bar

Part No. 731323T
Allows for installation of 30" light bar and four 3" cube lights

Part No. 731423T
Allows for installation of 40" light bar and two 3" cube lights

BECOME A GO RHINO ELITE DEALER TODAY!

Why Go Rhino?

For 40 years, consumers have selected Go Rhino for market-driven product design that extends the style and functionality of their vehicles. Consumers continue to choose Go Rhino because of our reputation for developing innovative products, responsive customer service, warranty support, quality manufacturing, and trusted marketing.

Why be a Go Rhino Elite Dealer?

The Go Rhino Elite Dealer program is a working partnership that provides Dealer support to enhance the retail showroom experience. The program is designed to aid and help dealers sell more products by providing tools, displays, sales support and more. By building a strong partnership with Go Rhino, informed dealers will be equipped to engage with consumers and assist them in making informed and satisfying buying decisions.

1. Go Rhino Displays

Go Rhino Elite Dealers are eligible to participate in the Go Rhino showroom display program including product, counter top, free standing, grid wall displays and other large display signage.

2. Authorized Reseller Kit

Go Rhino Elite Dealers receive an Authorized Reseller Merchandising kit to enhance the retail showroom experience with banners, stickers, brochures, counter mat, posters, window clings, pop-up displays and MORE.

3. Merchandising and Marketing Assets

Merchandising and Marketing Assets is intended to increase consumer awareness on Go Rhino products including digital assets, posters, literature, banners, clothing and more.

4. Promotions and Incentives

Go Rhino Promotions and Incentives are designed to enhance retail sales conversion with contests, promotions, rebates and incentives.

5. Field Support

Support from dedicated field representatives to assist with store merchandising, product education, training and sales incentives. This program consists of "Boots on the Ground" support, dealer visits, truck tours, Blitz events, in-store training and support for dealers.

6. Education and Training

Go Rhino Live is a state of the art product education platform for dealers. This program consists of online LIVE interactive education events customized to meet the dealer needs and schedules.

7. Website Locator Listing

Designation on gorhino.com as an Elite dealer with zip code address locator.

8. "Direct Link" Communication

Receive direct Go Rhino communications via e-mail and mail about new products, new applications, new catalogs, promotions and incentives.
